

**TITLE I  
PARENT INVOLVEMENT GUIDELINES  
Central High School**

**Central High School is dedicated to the goal of increasing parent involvement in all areas of our students' education. We will:**

- Partner with parents to support student learning.
- Inform parents about the Title I program, their child's academic progress, and their role in the education of their child.
- Provide opportunities for parents to be involved in the design, implementation, and evaluation of the Title I program.

Our goal will be accomplished through the following means:

- Make a personal connection with each family at the start of the school year or upon enrollment.
- Share information about Central High's Title 1 program
- Provide each student a parent-school-student compact.
- Meet with families to share curriculum and assessment information and set learning/behavioral goals a minimum of twice per year.
- Involve parents by holding family evening events
- Communicate with parents on a regular basis (weekly newsletters, phone calls, home visits, informal notes, email, etc.)
- Provide opportunities for parents with limited English proficiency or disabilities to participate (provide translators/translations for meetings and materials)
- Encourage parent feedback through surveys and discussions.
- Share Title I goal results with families by making the results available on Central High School website.

Parents who have comments or concerns about our Title I program are invited to call Sheboygan Area School District Coordinator of ESEA at 459-6429 or contact Ms. Lisa Finney, CHS principal, at 459-6745.
