SHEBOYGAN AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

August 2025 Update

WHAT'S NEW?

The Farnsworth and Urban projects are starting to show up in color! The Core Planning Team recently reviewed the first iterations of colored renderings, and we are excited to share some of those preliminary images in this report. These visuals provide an early look at the new classrooms at both Farnsworth and Urban, as well as a preview of the new Main Office at Urban Middle School.

Though additional iterations of renderings are expected, these early visuals offer an inspiring first glimpse of the future learning environments as the projects progress toward their final form.

PLANNING & DESIGN UPDATE

The design team is taking a closer look at individual spaces throughout the building as planning continues. Spaces such as locker rooms, staff preparation rooms, group restrooms, and single-user restrooms all have unique requirements that must be carefully addressed.

Beyond interior spaces, recent discussions have focused on how best to design and activate a new interior courtyard at Urban Middle School. The addition on the north side of the building creates this courtyard, ensuring classrooms in both the existing structure and the addition receive natural light. Current conversations explore how the courtyard will function—considering surface materials, drainage, and amenities. A rendering of this space will be shared in a future progress report.

Preliminary Rendering at Urban Middle School Main Office

NEXT STEPS

- » Finalize building engineering system selections
- » Finalize site design for City of Sheboygan coordination
- » Continue interior design development of the building
